

Welcome Spring and Summer With New Doormat Designs From Entryways

Solstice doormat

Cherry Hill, NJ, November 2017— Though it's chilly now, the warmer months are on the horizon, and Entryways — a leader in the home décor industry — has scores of new doormat designs that are absolutely perfect for spring and summer!

New to our Handmade Collection is **"Solstice"** — like a walk through a garden bursting with colour and joy, it features bright, gorgeous flowers and leaves surrounding a simple, elegant welcome.

Succulent doormat

With its teal and pink leaves fanning outward from a lush core, the striking ornamental plant design on our **"Succulent"** doormat is sure to catch the eye, and the fancy, of all who arrive at your doorway.

Measuring 40cm by 60cm, these and all doormats in the Entryways Handmade Collection are hand-stencilled with fade-resistant dyes to give these designs long-lasting flair. They're hand-woven from the best-quality all-natural coconut fibre to meet the industry's highest standards of durability.

Aster doormat

We've also got four lovely new designs in our popular Sweet Home Collection, including the scintillating **"Aster"** doormat with its toothed purple blooms reaching outward from a bright yellow center. It's sure to have all your guests take note when they arrive at your door.

"Golden Pineapple" sports the titular noble fruit — a global symbol of hospitality and warmth — atop thick, wavy black and beige lines, while our simple-yet-alluring **"Just for Your Home"** features the word home in charming script, accented with a

Golden Pineapple doormat

perfectly placed heart. And **“Boots and Umbrella”** cheerfully welcomes all visitors on even the most dismal rainy days, beckoning you to leave your soggy boots and umbrella behind and step into your comfortable, friendly home.

All doormats in our Sweet Home Collection are crafted from all-natural, best-quality coir to meet the industry’s highest standards of durability. They are hand-stencilled with fade-resistant dyes for long-lasting flair, and have a non-slip PVC backing.

With these terrific new doormat designs from Entryways, you can welcome the warmer months while extending a warm welcome to everyone who arrives at your door this year!

Boots and Umbrella doormat

Entryways, the industry leader known for exceptional artistry and quality, specializes in floor and doormats. The company designs, manufactures and imports durable, uniquely designed doormats and rugs in a variety of price points, qualities and sizes.
